GALENA PARK, TX  
77547

Since 1992, AllTrans has provided single-invoice trucking, rail transload, and rail freight services for hundreds of industrial customers through our two Houston terminals.

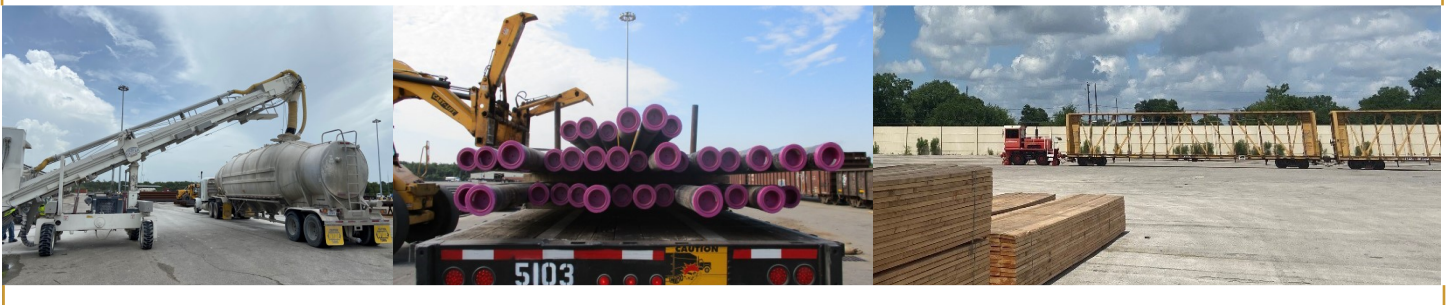

We are experts in rail shipping from the ground up, from turn-key trucking + transload + rail freight quotes, to inventory management, to meeting and exceeding all AAR loading and securement regulations.

I would appreciate the opportunity to learn about your business.

## Connecting our customers to the economies of rail

Very recently, AllTrans had the opportunity to help a customer with a supply chain issue. The customer in question was shipping steel products from the Houston area up to Canada via long-haul trucking. The customer was concerned that their usual trucking rate was due for yet another monthly hike, and they felt their options were limited. They had heard about the “economies of rail” but since they were a 3 person steel sales office with no railroad account or rail logistics department, they were unsure of how to realize those cost savings.

AllTrans, in partnership with the Class I North American railroads, produced a single-invoice rail package that reduced our customer’s total door-to-door supply chain freight expense by nearly 40%.

# Your full-service rail transload partner

## TERMINAL DETAILS

- Port Houston: 25+ acres in prime Port Houston industrial park—ISO 30000—UP, BNSF, KCS access
- Galena Park: 30+ acres with broad capability for bulk, steel, lumber, and other industrial products
- Additional terminal locations across our enterprise include:

Lordstown, OH (CSX); Youngstown, OH (CSX); Jersey Shore, PA (CP/NS)
